

Outdoor Cooling Units Cooling Units 1948 W for Stainless Steel Server Cabinets

SKU	DTS 3165/3185-LE
Produkt Verfügbarkeit	delivery time on request
Belastbarkeit in kg	
HE/U	25
Breite/width	800+145
Tiefe/depth	800
Höhe/height	1200
kW	0.51
Segmentation	

As an optional complement to our high-quality stainless steel server cabinets, we offer outdoor cooling units certified according to NEMA standards. These devices are available in various versions, including indoor (NEMA Type 12), outdoor (NEMA Type 3R/4), and outdoor/washdown (NEMA Type 4/4X stainless steel), providing outstanding performance and reliability.

With a high protection rating of IP 56, they are well-suited for laboratory and outdoor applications. These maintenance-free cooling units ensure reliable operation, even in the most demanding conditions.

Our DTS 3165 units are NEMA 3R/4 certified and feature a powder-coated steel hood, providing robust protection. Conversely, the DTS 3185 units are NEMA 4/4X certified and equipped with stainless steel hoods, offering additional protection against the elements.

The UL-certified NEMA Type 3R/4 gasket ensures a reliable seal for the enclosure, safeguarding your equipment from dust, water, and other contaminants, allowing them to be used in challenging environments.

These cooling units feature capacitors with a 3 mm fin spacing, enabling highly efficient protection against heavily polluted and aggressive ambient air.

Ample spacing between the intake and exhaust openings ensures smooth airflow within the enclosure, preventing hotspots and ensuring consistent cooling performance.

Additionally, the DTS 3165/3185 units come with integrated condensate evaporation, eliminating the need for manual drainage.

With a cooling capacity of 1948 W, these cooling units are designed for side mounting, highlighting their versatility and adaptability for various installation environments.

The DTS 3185 units, certified to NEMA 4/4X, and the DTS 3165 units, certified to NEMA 3R/4, are UL-certified, providing the highest level of safety and reliability.

Choose our outdoor cooling units for their exceptional technical performance and robust construction. Lehmann IT is your trusted partner for these cooling solutions, ensuring the protection and optimal functioning of your electronic equipment in any environment.
